

EBSD

So you want to do ebsd but you don't know how it works and what it does ?

This presentations gathers some basic general knowledge about ebsd:

<https://drive.google.com/file/d/1nKq87X3f0I-tkE4bAqWC2Fu3torVCFBh/view?usp=sharing>

MTEX

MTEX is a free matlab toolbox for EBSD data analysis: <https://mtex-toolbox.github.io/>

Here are a few scripts that could be usefull for some applications:

* [Compute the depth of each point of a sample relative to its surface whatever its geometry](#)
